#### Generally, a Power of Attorney may be used for closing in the following scenarios:

- Incapacitated Borrower the borrower is incapacitated and therefore unable to sign documents due to some disability, legal/mental incapability, or he/she lacks the physical ability:
  - Incapacitated borrowers must occupy the property as their primary residence; the underwriter must validate occupancy and review for any Red Flags within the loan file:
  - Red Flag's Example: verify the signer of the POA is not acting as a straw buyer or purchasing an investment property utilizing the incapacitated borrower's credit.
- Military Personnel the borrower is currently deployed or stationed overseas in the military and is unable to sign documents or attend closing;
- Hardship Circumstance the borrower is unable to attend closing because he/she is out of the state or country for an extended period of time, bedridden, in the hospital with a serious illness, or the borrower is incarcerated.
- A POA will **not** be permitted for borrowers that are on vacation or short term business trips.

#### **Power of Attorney**

#### Acceptable Types of Power of Attorney

- Specific or Limited this type of POA contains language that is specific or limited to the mortgage transaction providing authority over the real estate collateral or subject property; therefore the POA must specify the legal description, property address, and transaction type within the body of the document. It must be recorded at closing or prior to closing;
- General Durable A POA that provides for general powers, but also contains durability language is permitted. Traditionally, a POA becomes ineffective upon the disability of the principal. For mortgage financing transactions, the POA must remain valid even if the borrower becomes incapacitated or disabled prior to closing, therefore the POA must contain durability language. In order for the POA to be acceptable it must contain the following durability type of language 'This POA shall not terminate on the disability of the principal' or 'This POA is not affected by the subsequent disability of incapacity of the borrower'; and
- o General Military this type of POA is generally used in situations where a borrower or his/her spouse may be deployed or is on active duty and executed on a form provided by a branch of the military or armed forces.
- All other POA requirements per the <u>Freddie Mac Seller Guide</u> must be followed.

#### Insurance

- MI Coverage
  - 25% MI coverage for LTVs 90.01 97%
  - Standard MI coverage for LTVs of 90% or less
- Mortgage Insurance
- Split Premium MI is eligible subject to Freddie Mac Seller Guide
- Financed MI is eligible subject to Freddie Mac Seller Guide
- Lender paid single premium and borrower paid single premium MI is eligible subject to <u>Freddie Mac Seller Guide</u>
- · Custom MI not permitted

#### **Other Considerations**

#### Age of Documents

- · All credit documents must be dated within 120 days of the note date
- Preliminary Title Policies must be no more than 180 days old on the date that the note is signed
